

By registering for the SurgVU 2025 sub-challenge, each team member agrees:

1. That you intend to participate in the challenge using the provided dataset
2. To use the provided data only in the scope of the challenge and neither pass it on to a third party nor use it for any publication or for commercial uses until the dataset is released publicly.
3. To upload results as described in the submission guidelines of the sub-challenges before the deadline including a final report.
4. Each team member is only a member of this team and no other (even if you are a team of one).
5. That the results of the participating teams will be evaluated by the organizers using grand-challenge automated evaluation system and presented during EndoVis challenge at MICCAI.
6. That the team submission will only be considered successful if the final report, github codebase and pre-recorded presentation video is complete and submitted within the deadline.
7. That only the complete submissions are eligible for cash prizes.
8. That by submitting the results to a challenge, participants understand and agree to include those results to allow method comparison. This may be used to prepare a joint publication led by sub-challenge organizer(s). The sub-challenge organizers will determine authorship order for the paper, but each participating team will have at least one contributing co-author in the author list.
9. That the data used for SurgVU 2025 can only be used for publication purposes after the results of this challenge have been submitted for publication.
10. That only those individuals listed below will be considered official team members, and eligible for challenge awards (including authorship on challenge publications, cash prizes, etc.)

By signing on behalf of each team member, I declare that I understand and agree to the terms and conditions described above.

**Name:** \_\_\_\_\_
